

New England Communications has trained technicians that will install as well as service your Lenovo ThinkPad on the Saint Joseph's Campus for the full four year warranty period. No shipping off to the manufacturer and waiting a week for it to come back!

In the unusual event that the machine does need to be shipped out for repair, or if it takes New England Communications more than a day to repair it, loaner laptops will be available for you to use during that time.

Come see us at the summer freshman orientation. We will be there to answer any of your questions.

Please call us at 1-800-464-7585 if you have any questions, or to place an order. You can also contact us at
